

# Quarterly Report to Shareholders

June 30, 2015

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**  
(Unaudited)

The following discussion summarizes the financial position and results of operations of Golden State Farm Credit, ACA for the six months ended June 30, 2015, with comparisons to prior periods. You should read these comments along with the accompanying financial statements and footnotes and the 2014 Annual Report to Shareholders. The accompanying financial statements were prepared under the oversight of our Audit Committee.

**LOAN PORTFOLIO**

Loans outstanding at June 30, 2015 totaled \$1.17 billion, an increase of \$17 million, or 1.5%, from loans of \$1.15 billion at December 31, 2014. The increase was primarily due to increased demand and market penetration in both the commercial and real estate sectors.

**OTHER PROPERTY OWNED**

Other property owned is real or personal property that has been acquired through foreclosure, deed in lieu of foreclosure or other means. We had other property owned of \$14 thousand at June 30, 2015 compared with \$57 thousand at December 31, 2014.

**RESULTS OF OPERATIONS**

Net income for the six months ended June 30, 2015 was \$11.8 million, an increase of \$.7 million, or 6%, from the same period ended one year ago. The increase was due to lower amortization of the fair market value loan valuation adjustment in the first six months of 2015 compared to the first six months of 2014 offset by higher purchased services from AgVantis, Inc., salaries and other expenses.

Net interest income for the six months ended June 30, 2015 was \$15.5, an increase of \$1.2 million, or 8.4%, compared with June 30, 2014. Net interest income increased as a result of lower amortization of the fair market value loan adjustment in the first half of 2015 compared to the first half of 2014.

The provision for loan losses/loan loss reversal for the six months ended June 30, 2015 was \$40 thousand, an increase of \$13 thousand, or 48%, from the provision for loan losses for the same period ended one year ago. The provision for loan losses increased as a result of ongoing drought conditions in Northern and Central California.

Noninterest income increased \$20 thousand during the first six months of 2015 compared with the first six months in 2014 primarily due to increased financially related services income, loan fees and other offset by lower patronage refunds from Farm Credit Institutions and mineral income.

We received mineral income of \$4 thousand during the first six months of 2015, which is distributed to us quarterly by the Bank.

During the first six months of 2015, noninterest expense increased \$469 thousand to \$6.1 million, primarily due to higher salaries, purchased services from AgVantis, Inc. and other expenses.

**CAPITAL RESOURCES**

Our shareholders' equity at June 30, 2015 was \$262.4 million, an increase from \$250.5 million at December 31, 2014. This increase is due primarily to net income.

**REGULATORY MATTERS**

On May 8, 2014, the Farm Credit Administration approved a proposed rule to modify the regulatory capital requirements for System Associations. The stated objectives of the proposed rule are as follows:

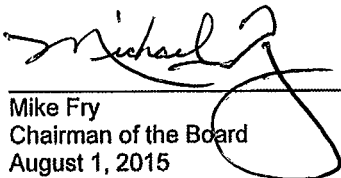

- To modernize capital requirements while ensuring that institutions continue to hold sufficient regulatory capital to fulfill their mission as government-sponsored enterprises;
- To ensure that the System's capital requirements are comparable to the Basel III framework and the standardized approach that the federal banking regulatory agencies have adopted, but also to ensure that the rules recognize the cooperative structure and the organization of the System;
- To make System regulatory capital requirements more transparent; and
- To meet certain requirements of the Dodd-Frank Act.

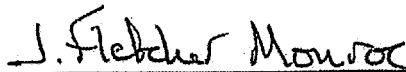

As currently drafted, the proposed rule would, among other things, eliminate the core surplus and total surplus requirements and introduce common equity tier 1, tier 1 and total capital (tier 1 + tier 2) risk-based capital ratio requirements. The proposal would add a minimum tier 1 leverage ratio for all System institutions. In addition, the proposal would establish a capital conservation buffer, and modify and expand risk weightings. The revisions to the risk weightings of exposures would include alternatives to the use of credit ratings, as required by the Dodd-Frank Act. The proposed effective date is January 1, 2016.

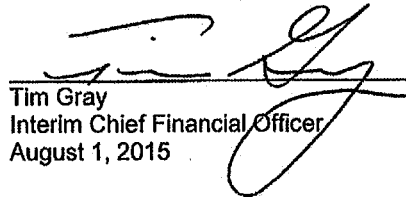

The public comment period ended on February 16, 2015. While uncertainty exists as to the final form of the proposed rule, based on our preliminary assessment, we do not believe the new rule will impose any significant constraints on our business strategies or growth prospects.

**OTHER MATTERS**

The undersigned certify they have reviewed this report, this report has been prepared in accordance with all applicable statutory or regulatory requirements and the information contained herein is true, accurate, and complete to the best of his or her knowledge and belief.

The accompanying notes are an integral part of these consolidated financial statements.

**NOTES TO FINANCIAL STATEMENTS**  
(Dollars in Thousands, Except as Noted)  
(Unaudited)

**NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES**

A description of the organization and operations of Golden State Farm Credit, ACA (the Association), the significant accounting policies followed, and the financial condition and results of operations as of and for the year ended December 31, 2014, are contained in the 2014 Annual Report to Shareholders. These unaudited second quarter 2015 financial statements should be read in conjunction with the 2014 Annual Report to Shareholders.

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the U.S. (GAAP) for interim financial information. Accordingly, they do not include all of the disclosures required by GAAP for annual financial statements and should be read in conjunction with the audited financial statements as of and for the year ended December 31, 2014 as contained in the 2014 Annual Report to Shareholders.

In the opinion of management, the unaudited financial information is complete and reflects all adjustments, consisting of normal recurring adjustments, necessary for a fair statement of results for the interim periods. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year ending December 31, 2015. Descriptions of the significant accounting policies are included in the 2014 Annual Report to Shareholders. In the opinion of management, these policies and the presentation of the interim financial condition and results of operations conform with GAAP and prevailing practices within the banking industry.

**NOTE 2 - LOANS AND ALLOWANCE FOR LOAN LOSSES**

A summary of loans follows.

|                                  | June 30, 2015       | December 31, 2014  |
|----------------------------------|---------------------|--------------------|
| Real estate mortgage             | \$ 1,032,646        | \$ 1,019,201       |
| Production and intermediate-term | 62,700              | 58,874             |
| Agribusiness                     | 42,003              | 40,802             |
| Rural residential real estate    | 272                 | 296                |
| Lease receivables                | 31,685              | 33,153             |
| <b>Total loans</b>               | <b>\$ 1,169,306</b> | <b>\$1,152,326</b> |

The Association purchases or sells participation interests with other parties in order to diversify risk, manage loan volume and comply with Farm Credit Administration regulations. The following table presents information regarding the balances of participations purchased and sold during the quarter ended June 30, 2015:

|                                  | Other Farm Credit<br>Institutions |                  |
|----------------------------------|-----------------------------------|------------------|
|                                  | Purchased                         | Sold             |

| Rural residential real estate    | -                                   | 3               | -                       | 298                 |
| Lease receivables                | -                                   | 633             | 4                       | 33,149              |
| <b>Total</b>                     | <b>\$ -</b>                         | <b>\$ 2,524</b> | <b>\$ 247</b>           | <b>\$ 1,158,223</b> |

The Association recorded no TDRs during any period presented.

### NOTE 3 - CAPITAL

At June 30, 2015 the Permanent Capital Ratio was 18.36%.

### NOTE 4 - FAIR VALUE MEASUREMENTS

Accounting guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability. See Note 2 to the 2014 Annual Report to Shareholders for a more complete description.

The Association had no assets or liabilities measured at fair value on a recurring basis at June 30, 2015 or December 31, 2014.

Assets measured at fair value on a non-recurring basis for each of the fair value hierarchy values are summarized below:

|                                    | Level 3   | Total<br>Fair<br>Value | Gains/(Losses) |
|------------------------------------|-----------|------------------------|----------------|
| <b>June 30, 2015</b>               |           |                        |                |
| <b>Assets</b>                      |           |                        |                |
| Loans acquired in Kingsburg merger | \$567,535 | \$567,535              | \$ 958         |
| <b>Liabilities</b>                 |           |                        |                |
| Debt acquired in Kingsburg merger  | \$478,715 | \$478,715              | \$ (661)       |

As more fully discussed in Note 2 to the 2014 Annual Report to Shareholders, accounting guidance establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The following presents a brief summary of the valuation techniques used by the Association for assets and liabilities, subject to fair value measurement.

**NOTE 5 - SUBSEQUENT EVENTS**

The Association has evaluated subsequent events through August 1, 2015, which is the date the financial statements were issued, and no material subsequent events were identified.
